

BEERKIT OPEN GOLD 'ALL GRAIN'

The Baladin interpretation of the APA (American Pale Ale) style, Open Baladin Gold has a strong and charming character. With its deep golden color, it has a creamy and thick head and releases the citrusy scents of American hops. The taste has clear notes of grapefruit, which perfectly blend with the pleasant bitterness of hops.

The kit contains the malt grains of the right variety and in the required quantity, the correct amounts of hops for the various stages, the yeast and, if needed, special ingredients such as sugars and spices. You will also find a detailed recipe with step by step instructions to make your own beer.

THE KIT CONTAINS:

- Pilsner malt
- Pale Ale malt
- Maris Otter malt
- Magnum hops
- Columbus hops
- Amarillo hops
- Cascade hops
- SAFALE US
- 05 yeast

If you don't have all the necessary equipment to brew your beer at home, visit the website of MR.MALT.

Paarungen

This is a great aperitif beer, but it also goes well with fried food or a good burger.
