

BEERMOUTH

A spirit with a beautiful amber color. It has scents of spices and moderately balsamic notes. The taste is elegant and well balanced, with a citrusy touch, a persistent and pleasantly acidic finish. It is excellent on its own or at the end of a meal... And mixed in a cocktail!

Reinterpreting tradition through beer.

Beermouth is an innovative product and, at the same time, it is strongly inspired by tradition. It results from the combination between a beer with a strong personality and structure and a mix of very carefully selected (and very secret) spices and herbs, extracted using the most advanced techniques. It is the creation of Teo Musso's vision in beer-making and of Dennis Zoppi and Giacomo Donadio's experimentation. A blend of passions which has laid the foundations for a new way of thinking of beer and creating excellent drinks in the world of mixology.
