

PEACH AND CORIANDER

When we were children, we used to drink "real" fruit juice made by our mums. From this memory an idea - shared with the "Mariangela Prunotto" farm - emerged: creating a modern product, but with the typical values of the past.

This is the origin of Bevi Frutta Peach and Coriander. Non just any fruit juice, but a mixture of flesh and spices which shows how Baladin loves to experiment, even beyond the world of beer. Of course, no preservatives or additives are used.

Pairings

Peach and Coriander is perfect for breakfast, to start the day with a nice and healthy portion of fruit. Appreciated by children and adults, it is the ideal drink for a healthy afternoon break for kids, with a slice of bread and home-made jam.
