

CIDER

A drink linked to the earth, to tradition and the quintessential biblical fruit, the fruit of sin. A link between the French-Belgian tradition and the typical apple juice of Piedmont, our cider is the product of the spontaneous fermentation of apples. Fresh and genuine, its color is clear, and it has a fine perlage. It smells of flowers and spring meadows, and leaves a delicate and persistent taste.

TECHNICAL NOTES

Alcohol content: 4 %

Serving temperature: 8/10°C

Appariements

Sidro Baladin is great as an aperitif. Thanks to its intense taste, it is ideal for informal meetings, or even for a date. The chef recommends flavorsome cheese to go with it. However, it also stands out in surprising and unexpected combinations with particularly spicy food or blue cheese, muscles and some fish, such as salt cod.
